**Notes.**

Mr. Ph. Hainsberger, 81 Delancey St., New York, is our authorized agent for the receipt of subscriptions and advertisements for this paper in U. S.

Remember that to every one subscribing before 15th February, we will give one rare foreign stamp, and also insert name and address in Directory column, send them in.

Collectors can have name and address inserted in Directory column under proper head at the rate of 15c. per each insertion; this will materially increase your collection.

A large number of each issue will go to foreign countries. Importers should send us their ads.

Agents wanted in every village, town and city to get subscriptions and advertisements for this paper; liberal commission.

We wish to exchange with every Journal published in the interest of curiosities of any kind, publishers of which please send two copies, and we shall be pleased to do same.

Persons having curiosities of any kind to dispose of should send us their ads. We guarantee satisfaction.

While some workmen were recently pulling down an old building in the town of Srensborg, on the island of Funen, they came upon a valuable treasure,

which included 10 bars of very fine silver and 3,774 silver and gold coins, all dating from the reign of the Danish King Eric of Pomerania (A. D. 1396-1412).  
—*Youth's Ledger*,

In this our initial number we launch forth on the troubled waters of an editor or publisher of a curiosity journal's life, at the same time it will be our ambition to guide our craft safely into port for the welfare of our customers and our own pocket. It shall be our aim and endeavor to present to advertisers of Philatelic and other curiosities, a safe and trustworthy medium wherein they may announce their goods to the public, and to buyers the advertisements of reliable dealers of whom they may purchase without fear of fraud or imposition. Although there are plenty of journals treating of the same subject, yet we think there is room for one more, and—hope to improve with every issue, until we stand in the front ranks, able to compete successfully with the most ably conducted paper published.

We are also happy to say that we have received encouragement beyond what we had expected for our first number, and for which our patrons will please accept best thanks. We also call attention to the fact that in our next we shall start an exchange column, which for that number will be absolutely free, but afterwards open to subscribers only. Believing that brevity is the soul of wit, we merely say in conclusion that hoping to avail and meet with encouragement from both advertisers and collectors, and also the helping hand which we know will be held out to us by our fellow publishers and readers, wishing all a successful and happy New Year, we say an revoir till next issue.

<p style="text-align: center;"><b>EDITORIAL</b></p> <p>We hope that our readers and advertisers will not be too severe in their criticisms of the first number of "THE BLUENOSER". We already have improvements in mind for the next issue, and although this publication makes its début with practically no advance notice, we have taken steps to make its existence widely known before the second number is in circulation. Certainly we have spent more time and space in organization and advertising than goes to make a well balanced philatelic publication, as may be judged from the dearth of reading material herein. Contributions of the latter will be most welcome.</p> <p>Our sincere thanks go out to our present advertisers for their generous support, and to those who have so splendidly co-operated in the most important matter of distribution.</p> <p>We trust that we may warrant your continued patronage for a long time to come.</p>	<p style="text-align: center;"><b>STAMP COLLECTORS</b></p> <p>Exchange Directory, 25 different stamps or 10c per insertion.</p> <p><b>A. *Mes amis,*

L'homme est le seul être de la création qui collectionne. C'est une des caractéristiques qui le distingue.

La raison en est probablement insaisissable, mais un des aspects de la collection est qu'il permet à un homme de prendre contact concrètement avec d'autres hommes, par l'entremise d'un objet de fabrication.

C'est ce que font des millions de personnes à travers le monde qui col-

## JEUX OLYMPIQUES et JOURNEE DU TIMBRE

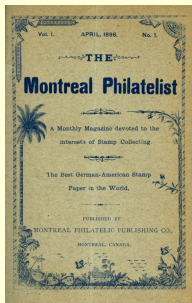

Le 11 novembre, en diverses couleurs, naquit les  
timbres du "Innsbruck Olympic Games" en commémor-  
ation des jeux olympiques d'hiver à Innsbruck. A l'occa-

timbres.

Le procédé employé pour la fabrication de ces tim-  
bres fut la photogravure, les timbres émis furent de 40,  
60, 70, Fill et 2, 2.80, 4 plus 1-Pt, cette émission parut à  
400,000 exemplaires avec perforations, et 12,000 sans  
perforations.

Le 36ième anniversaire de la Journée du Timbre,  
en Hongrie, se manifesta le 24 octobre 1963 par l'émis-  
sion d'une série de quatre valeurs, en plus d'une feuille  
souvenir les incluant tous. La surcharge apposée sur ces  
timbres a été versée à la Fédération Nationale des Phi-  
latelistes hongrois. Les timbres furent émis à 270,000  
perforés et 6,000 sans perforations, et la feuille souvenir
