

The Manitoba Duplex Postmarks, Part 1

by Lawrence A. Walker & Jean-Guy Dalpé

This is the first part of an article dealing with the duplex cancellation postmarks of the Province of Manitoba. Except for Winnipeg, which will be treated in Part 2, there seem to be no problems for any of the post offices in this province. They all have MAN. at the base of the datestamp.

May we remind readers that the definitions of the different types of duplexes may be found in PHSC Journal #30, and also that the measurement of the horizontal

diameters was taken from photocopies of the Proof Impression Books, and consequently is somewhat larger than if it had been taken from originals.

We should like to express our special and sincere thanks to Lynn Binney and to James Felton, who have updated our Maritime lists. We are also very grateful to the latter for agreeing to update the present list and others which will be published in the future.

The Manitoba Duplex Postmarks, Part 2

by Lawrence A. Walker & Jean-Guy Dalpé

Part 2 of the Manitoba duplex article does not need any long comment. As stated in Part 1, the name of the province is always "MAN.", except in the case of Winnipeg, for which the inscription at the base

of the datestamp is given for each hammer, following the conventional sign "/".

Again, our most sincere thanks go to Jim Felton, who has graciously updated the present list.
