

Ontario Duplex Postmarks — Part 1

by Lawrence A. Walker and Jean-Guy Dalpé

At long last the Ontario Duplex postmark listing starts below. It will be presented in four parts.

The name of the province at the base of the datestamp is always "ONT" unless otherwise specified. The reader is referred to

PHSC Journals #30 and #43 for descriptions of the hammer types noted in column 2 of the table. As before, data contained in the six leftmost columns reflect information taken from first photocopies of the Pritchard and Andrews proof impression books, except that diameters in parentheses are measurements made on actual strikes.

Ontario Duplex Postmarks — Part 2

by Lawrence A. Walker and Jean-Guy Dalpé

Herewith Part 2 of the Ontario Duplex Postmarks. Part 1 appeared in PHSC Journal #48 and Parts 3 and 4 will appear in Journals #51 and #52, respectively.

The numbering of footnotes continues from Part 1. The name of the province at the base of the datestamp is always "ONT"

unless otherwise specified. The reader is referred to PHSC Journals #30 and #43 for descriptions of the hammer types noted in column 2 of the table. As before, data contained in the six leftmost columns reflect information taken from first photocopies of the Pritchard and Andrews proof impression books, except that diameters in parentheses are measurements made on actual strikes.

A Pair of Returned Covers

by Carl Munden

It is always interesting to examine the paths followed by letters that have not been delivered for one reason or another, whether they are routed through the Dead Letter Office or not. The following short article about two "returned letters" in my collection will illustrate the point.

Although many people own or have seen an example of the prolific McAulay correspondence, few are aware that J.A. was the proprietor of a general store at South Side Basin of River Dennis/Denys. Another surprise, he was also the postmaster of that community, and, if the post office record card can be believed, held that position from 1895 to 1954, a total of 59 years. A stalwart Cape Bretoner was old John A.

This story begins with John A.'s corner card (see Fig. 1) mailed to W.C. McLeod, Needham, Mass., with a S. Side Basin of Riv. Dennis split ring dated MR 30 95. There is also a N.S. grid on the Small Queen. Both these marks were probably applied by John A. himself. The next strike is a backstamp River Dennis split ring dated Ap 1 95, followed by a receiving mark Needham Mass cds dated APR 3 1895. (Fig. 2)

The cover now rests in the Needham, Mass. office and is unclaimed. Next we see cross-hatching in pencil over the front of the cover and straight-line 'Return to Writer' and 'Unclaimed' handstamps which would

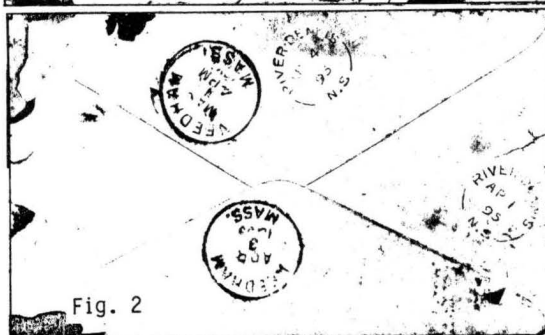

Fig. 2

be of U.S. postal origin. The next strikes are Needham, Mass. cds despatch marks dated MAY 1 4PM 1895 on both front and back of the cover, followed by a River Dennis split ring backstamp dated MY 4 95. Apparently John A. did not bother to add his receiving mark, since the letter was for himself.

Ontario Duplex Postmarks — Part 3

by Lawrence A. Walker and Jean-Guy Daipé

Herewith Part 3 of the Ontario Duplex Postmarks. Parts 1 and 2 appeared in PHSC Journals #48 and #49, respectively, and Part 4 will appear in Journal #52 as the last of the series.

The name of the province at the base of the datestamp is always "ONT" unless other-

wise specified. The reader is referred to PHSC Journals # 30 and #43 for descriptions of the hammer types noted in column 2 of the table. As before, data contained in the six leftmost columns reflect information taken from first photocopies of the Pritchard and Andrews proof impression books, except that diameters in parentheses are measurements made on actual strikes.

Ontario Duplex Postmarks — Part 4

by Lawrence A. Walker and Jean-Guy Dalpé

Herewith Part 4 of the Ontario Duplex Postmarks, the last of the series. Parts 1, 2 and 3 appeared in PHSC Journals #48, #49 and #51, respectively. The series has covered all the provinces, with special lists for Halifax, Montreal and Quebec City. The series started in PHSC Journal #30.

The name of the province at the base of

the datestamp is always "ONT" unless otherwise specified. The reader is referred to PHSC Journals #30 and #43 for descriptions of the hammer types noted in column 2 of the table. As before, data contained in the six leftmost columns reflect information taken from first photocopies of the Pritchard and Andrews proof impression books, except that diameters in parentheses are measurements made on actual strikes.
